A Stimulating Time for Construction? - Monday, July 13

The American Recovery and Reinvestment Act--the "stimulus bill"--contains a wide array of spending programs for construction. But it comes in the midst of the steepest economic downturn in decades. What types of construction will get a boost? Will stimulus end the recent break in materials costs? How soon can Washington contractors expect to benefit from an improving economy? AGC of America Chief Economist Ken Simonson will answer these questions--and yours--in a lively, interactive session. This event will be on Monday, July 13 at the Seattle AGC conference center. 2nd Annual Mariner's Game - Friday, July 24

Come watch the Seattle Mariners play against the Cleveland Indians! We will meet at Elysian Fields for food and beverages and then walk over to watch the game. Bring a guest and be ready to have a good time. [Register Here.](#)

- Convention After Party - If we chartered buses and took everyone somewhere, where would you like to go?
