

HELP US BUILD A BETTER CONGRESS!

AGC PAC is one of the political vehicles of the construction industry. More specifically, AGC PAC is the separate, segregated fund of the Associated General Contractors of America which works to raise personal contributions from member contractors across the country. The dollars raised are used to help elect construction-friendly candidates to federal office. AGC PAC needs the involvement of a broad base of construction professionals in order to have a significant political impact on issues of interest to the construction industry introduced in Congress. AGC PAC needs YOUR support!
