

A ConsensusDOCS Webinar:
Using Electronic Communications on Construction Projects

Nov. 19, 2008 at 2:00 - 3:00 PM ET

Manage your Contractual Responsibilities and Risk - ConsensusDOCS 200.2 Electronic Communications Protocol Contract

Register at: www.agc.org/electronic

NEW PROGRAM | Register today for the *Using Electronic Communications on Construction Projects* webinar and get insightful and practical tips from the person who led the national effort to create the ConsensusDOCS 200.2 – the new Electronic Communications Protocol Addendum. Learn how you can manage your risks and contractual responsibilities and how 200.2 can be customized to meet project-specific needs.

TOPICS:

- The pros and cons of "paperless" project delivery; including understanding the ramifications of using email and fax, and incorporating project website info.
- Impact of revisable electronic data transmission and how to protect your data so it is used appropriately for your specific project.
- Using the Addendum to develop sensible archiving protocols for project-related electronic records.
- How to structure your IT management team.

SPEAKER:

Kim Hurtado, Esq. Managing Shareholder of Hurtado, S.C., Counselors at Law.

REGISTRATION:

Registration is open to members and non-members. Members: \$149 Non-members: \$229.
