## 2020 Work Zone Awareness Survey Results

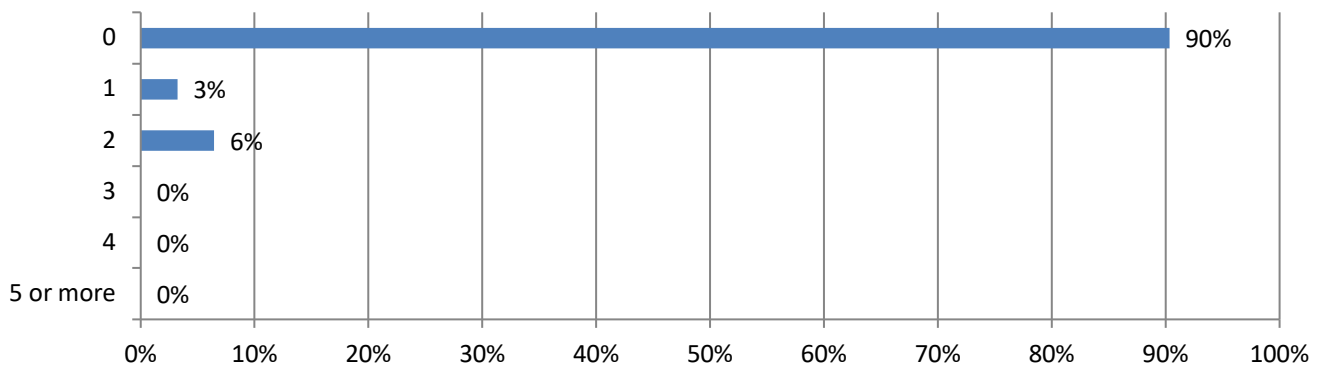

### West Results

Total 36 responses; Responses varied for some questions. Percentages are based on responses to each question and may not sum to 100 due to rounding (total specified in some questions).

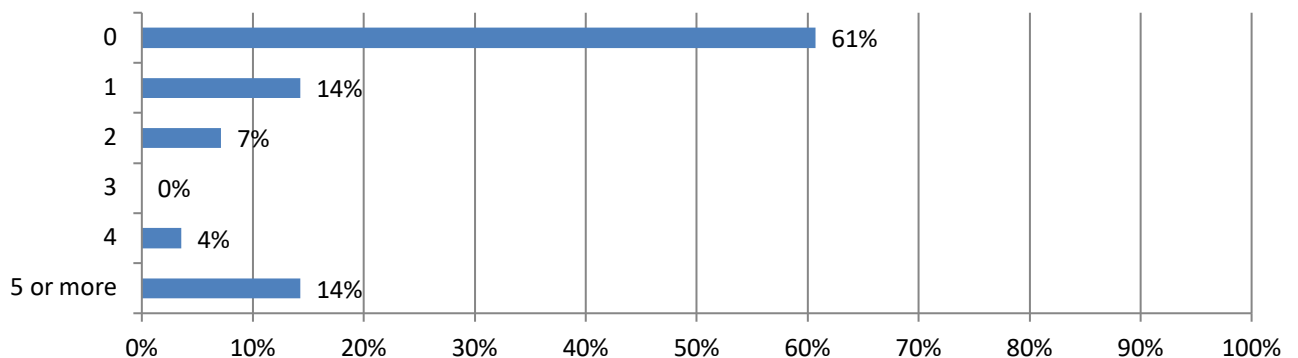

**1. In the past 12 months, how many crashes involving a motor vehicle have occurred at a highway work zone where your firm operates? (32 Responses)**

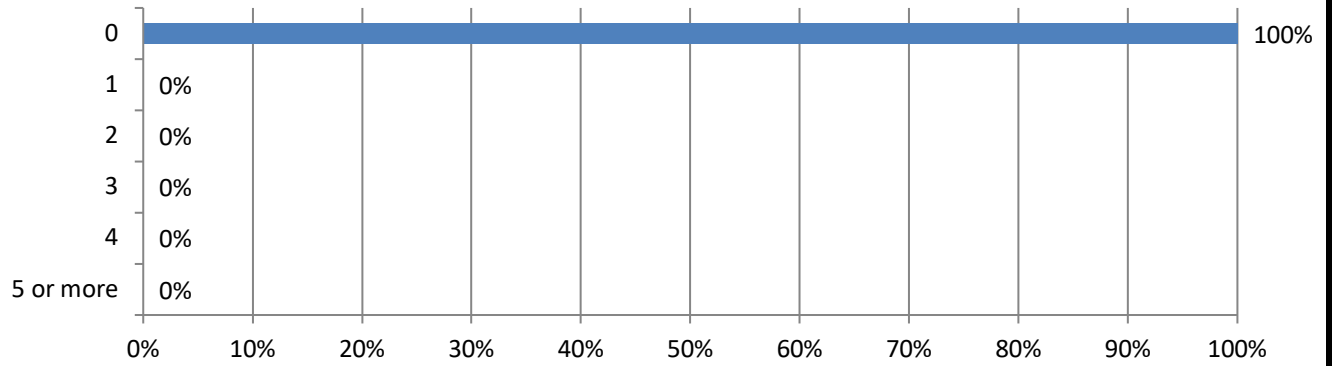

**2. How many construction workers were injured in these crashes? (31 Responses)**

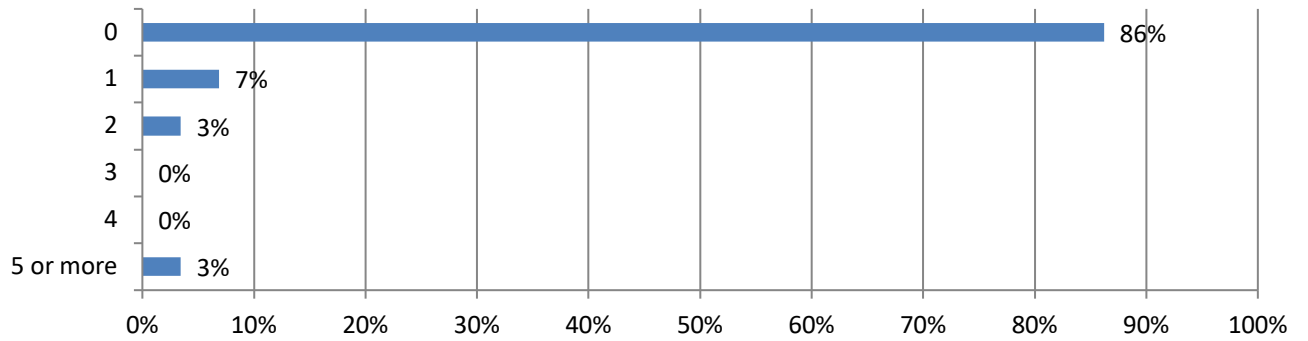

**3. How many drivers or passengers were injured in these crashes? (28 Responses)**

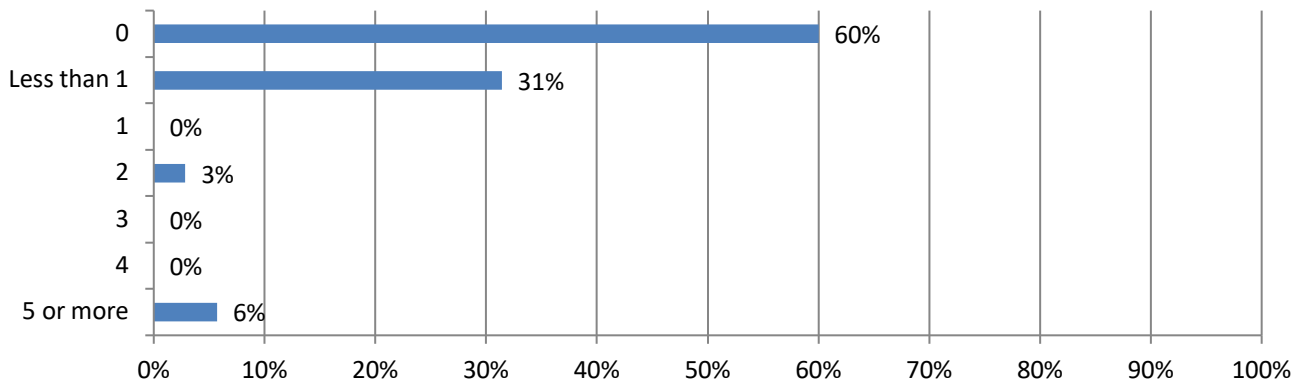

**4. How many construction worker fatalities resulted from these crashes? (32 Responses)**

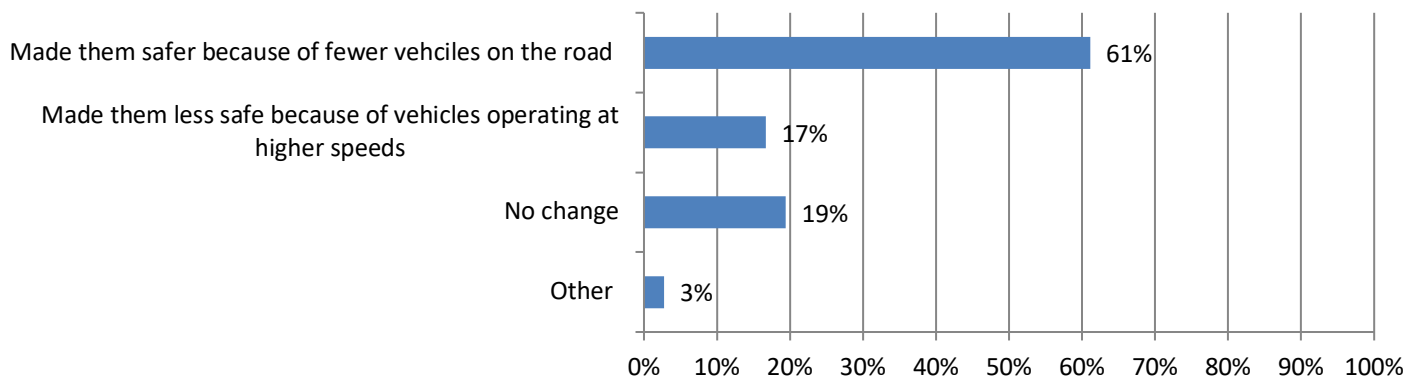

**5. How many driver or passenger fatalities resulted from these crashes? (29 Responses)**

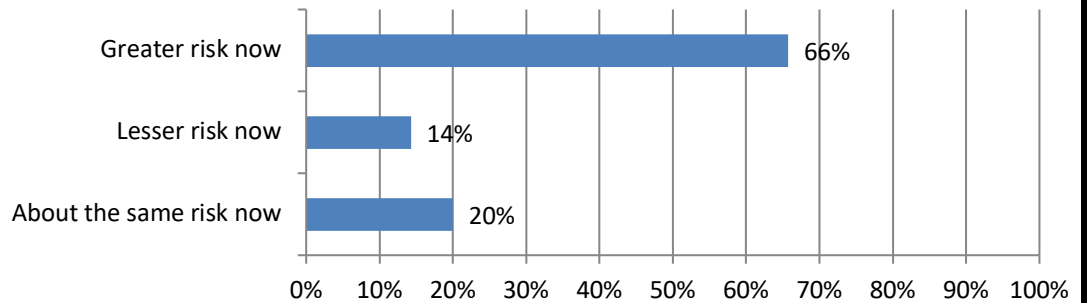

**6. How many days have your firm's projects been delayed because of these crashes? (35 Responses)**

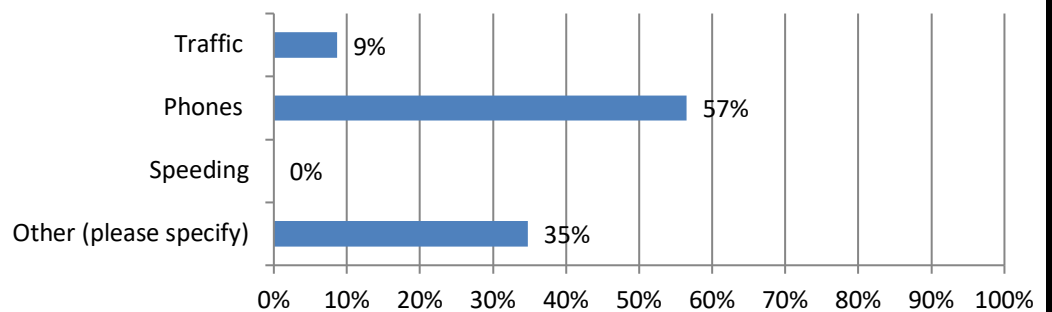

**7. How have changes in highway traffic levels since the coronavirus impacted safety in highway work zones? (36 Responses)**

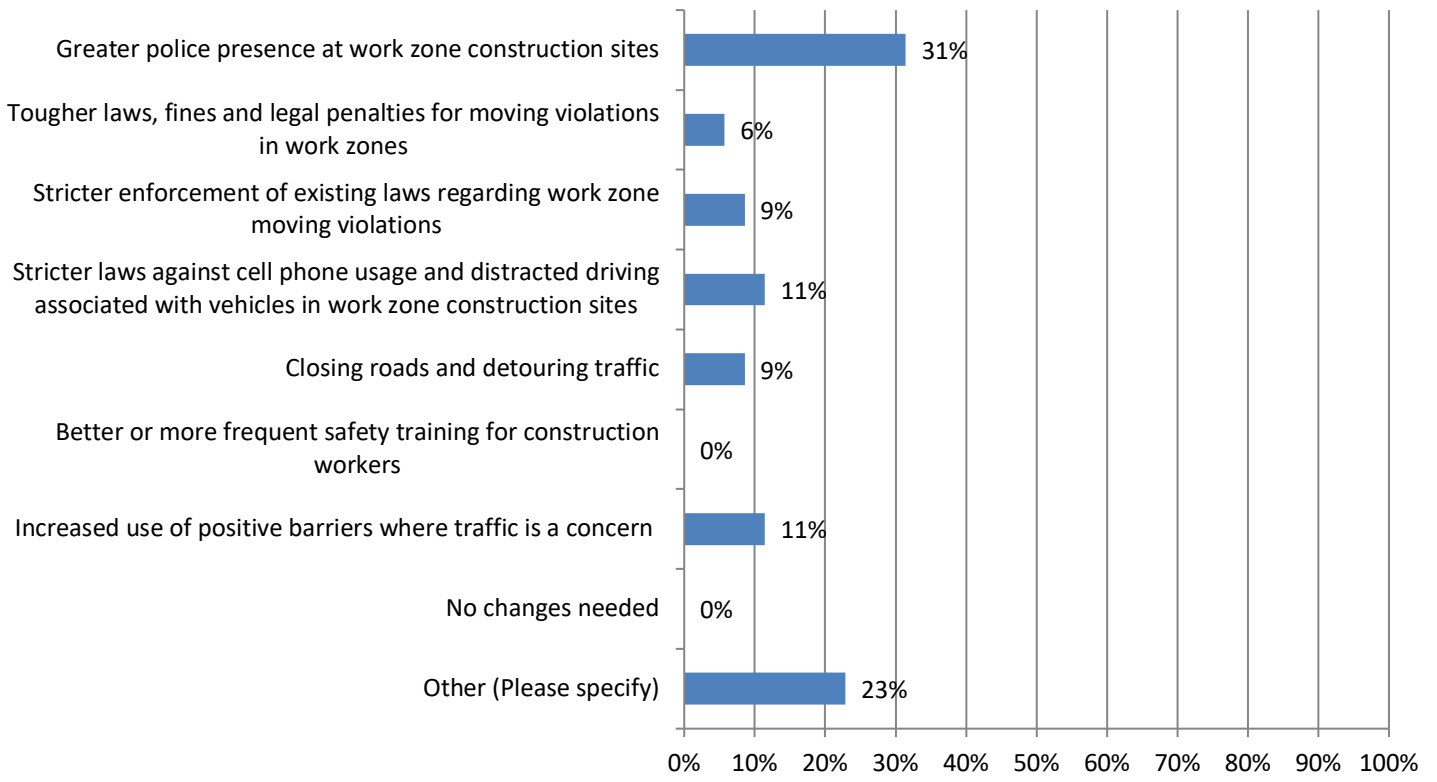

**8. In your opinion, how much of a risk are highway work zone crashes now compared to a decade ago? (35 Responses)**

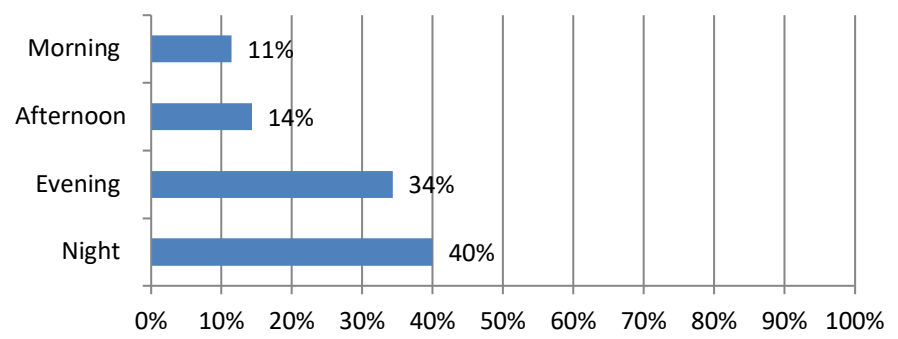

**9. Why do you think highway work zone construction is more dangerous today compared to a decade ago? (Check all that apply) (23 Responses)**

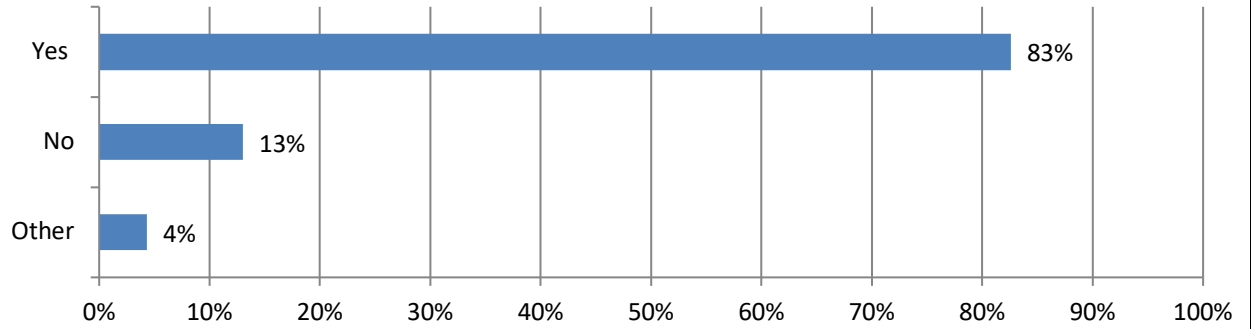

**10. Would any of these measures help reduce the number of highway work zone crashes, injuries and/or fatalities? (Check all that apply) (35 Responses)**

**11. Is there a particular time of day where motorist intrusion into work zones occurs most often? (35 Responses)**

**12. Is there an increase in incidence when performing night work? (23 Responses)**

**13. If you answered yes, what do you attribute this to? (17 Responses)**
