Welcome to the Leadership-Link

Welcome CLC members to the first edition of the Leadership-Link. A quarterly newsletter from the CLC National Steering Committee purposed to keep members informed and to give a forum for Chapter to tell their stories and successes.

This edition will focus on the recent Working Weekend in Seattle, WA, to introduce the National Steering Committee, and review our 2012 initiatives as a National Steering Committee. We would like future editions to focus more on what is going on in local chapters around the country. In order to do that we need to hear from your chapter! Please see additional information on page 2 on how you can get involved.

CLC National Working Weekend 2012

The CLC National Working Weekend 2012 was held in Seattle Washington September 20th-22nd. Co-sponsored by AGC of Washington the event was held at the Westin Seattle and featured several Development Sessions, Networking Events, and an engaging Keynote Speaker. Jim Whittaker shared the incredible story of his life's journey and all of the risks that he had taken that helped him grow along the way. Professional Development Sessions included:

- IT Trends in Construction
- The 90-Minute MBA
- From Project Manager to Business Developer
- Project and Business Records in the Digital Age
- Leadership and a Sound Economy
- Risk Management: Pike Place Market Renovation
- Panel of Legends: Access to Experience

Friday's events concluded with breathtaking views on an Argosy Cruise evening reception. Saturday finished the weekend with a Project Presentation and Jobsite Tour of Husky Stadium presented by Turner Construction. The weekend was a great success with a record 127 attendees and an amazing assortment of speakers and experiences. A big thank you from the CLC National Steering Committee goes out to everyone involved in making this a great success.

Save the Date: 2013 CLC National Working Weekend
will be held in St. Louis, MO 9/12/13-9/14/13

VJS Construction Services - Milwaukee, WI

Brian Travis

Project Manager

Manhattan Construction – Tulsa, OK

Frank Wilson, MCM, GCPM, CM-BIM

Adjunct Professor of Civil Engineering

Washington University of St. Louis

2012 Steering Committee Initiatives

Charitable Event

Committee: Kyle Pennington, Andy Johnson, Frank Wilson

Purpose: The Community Service Committee of the National CLC has a big goal for 2013 that involves you. Like many chapters, yours is probably already doing something to benefit your community. Next year we're asking chapters to hold this event or a new one sometime in the month of September. It can take whatever form your chapter feels can best benefit for your community. It's a chance for your chapter to be recognized on a national level. Stay tuned in January for more information and ideas about the event.

Communication

Committee: Sarah Miller, Brian Travis, Jason Schneider, Chet Braun

Purpose: To make communication between the National Steering Committee and the local CLC chapters and their members more effective and to offer a platform for local CLC chapters to showcase the great things that they are doing in their communities and in their organizations.

Mentorship

Committee: Devlyn Quinn-Emilio, Doug Tapp, Chad Martin, Joe Meuleman

Purpose: Provide a structured mentorship program with AGC officers and other established leaders to promote the transition from the CLC Steering Committee to active involvement with the divisions, committees, forums, and other councils. The program is also intended to provide a model for use at the local chapter level.

How to Feature your Chapter

Do you want a chance to showcase what your chapter is doing? Send your articles and photos to curriculum@agc.org for a chance to be featured in the next issue of the Leadership-LINK. Limit articles to less than 250 words and submit quality photos with captions. This Newsletter will run quarterly and feature as many great articles from around the country as we can. We hope to hear from you soon!

Ex-officio: Andrew Huber

Project Manager

A.L. Huber, Inc. – Overland Park, KS

ELC Liason: Doug Tapp

Executive Director

AGC of Oklahoma Building Chapter – Oklahoma City, OK
