CLC Structure

The CLC functions as a forum in which members can network, socialize, and exchange ideas on issues facing mid-career construction professionals. The CLC is open to all interested AGC members without the need of a formal appointment process. The steering committee membership rotates on a regular three-year basis.

CLC Purpose

- To be an open forum to exchange ideas.
- To be an entry vehicle into AGC to promote new member involvement.
- To foster a strong network among peers.
- To create and promote industry innovation.
- To discuss the most important issues and provide feedback to AGC leadership.
- To help structure AGC for the future.

CLC Steering Committee Selection

- The CLC Steering Committee will review all nominees during its November 2021 conference call. A current CLC Steering Committee member will call the nominee and discuss their application in greater detail. A final decision on which members will be selected will be made during the December 2021 call. During the interview and selection process, the members will take into consideration the composition of the current Steering Committee and the number of slots available. They will be looking for nominees who:

 2. Can make a three-year commitment;
 3. Will attend the two in-person meetings held each year;
 4. Help diversify the Steering Committee in terms of geographic representation and type of work firm performs; and
 5. Complete all portions of the application, including providing a commitment from the employer and a letter of recommendation from the local Chapter executive director.
- Applicants will be notified whether or not they have been selected for the national Steering Committee by the third week of December 2021. Their three-year term will begin at the in-person Steering Committee meeting to be held at the [2022 AGC Annual Convention](#) in Grapevine, TX, March 28-31, 2022.
