

## Build America Awards

*For the first nine categories listed you will be asked to distinguish between new or renovated projects.*

**Building (under \$20 million)** | Regardless of project delivery system your completed project total cost was under \$20 million.

**Building (\$20 million to \$75 million)** | Your completed project was a traditional building that may include office buildings, hospitals, schools, libraries, airport terminals, museums, multifamily housing and others that cost between \$20 to \$75 million.

**Building (\$126 million or more)** | Regardless of project delivery system your completed project total cost was over \$126 million.

**Construction Management (under \$20 million)** | Your project was completed using the Construction Management project delivery system where your total percentage of volume of work performed with your own field personnel was under five percent.

**Construction Management (\$20 million to \$75 million)** | Your project was completed using the Construction Management project delivery system where your total percentage of volume of work performed with your own field personnel was under five percent and that cost between \$20 to \$75 million.

**Construction Management (\$76 million to \$125 million)** | Your project was completed using the Construction Management project delivery system where your total percentage of volume of work performed with your own field personnel was under five percent and that cost between \$76 to \$125 million.

**Construction Management (\$126 million or more)** | Your project was completed using the Construction Management project delivery system where your total percentage of volume of work performed with your own field personnel was under five percent and cost more than \$126 million.

**Highway & Transportation (\$20 million to \$100 million)** | Your completed project included highways, bridges, airports, runways/taxiways, lane expansions, interchange improvements, new interchanges or alignments, overpasses, pedestrian bridges, road tunnels, transit and railroad projects that cost between \$20 million and \$100 million.

**Highway & Transportation (\$100 million or more)** | Your completed project included highways, bridges, airports, runways/taxiways, lane expansions, interchange improvements, new interchanges or alignments, overpasses, pedestrian bridges, road tunnels, transit and railroad projects that cost more than \$100 million.

*For these 11 categories, there is no distinction between new or renovated projects.*

**Building (\$76 million to \$125 million)** | Your completed project was a traditional building that may include office buildings, hospitals, schools, libraries, airport terminals, museums, multifamily housing and others that cost between \$76 to \$125 million.

**Construction Management Civil** | Your civil project was completed using the Construction Management project delivery system.

**Design-Build Building** | Your building project was completed using the Design-Build project delivery system.

**Design-Build Civil** | Your civil project was completed using the Design-Build project delivery system.

**Federal & Heavy** | Your completed project was for the Corps of Engineers, NAVFAC, Air Force, GSA; any type of marine construction or dredging projects for ports and inland waterways; flood control and prevention projects for the Natural Resources Conservation Service, Bureau of Reclamation; or any industrial plant construction.

**Environmental Enhancement** | Your project included environmental enhancement, wetland mitigation, ground water clean-up or required reclaiming or remediating an environmentally contaminated site (e.g., brownfield, superfund, illegal dumping site, and abandoned mine).

## Build America Awards

**Highway & Transportation (under \$20 million)** | Your completed project included highways, bridges, airports, runways/taxiways, lane expansions, interchange improvements, new interchanges or alignments, overpasses, pedestrian bridges, road tunnels, transit and railroad projects that cost under \$10 million.

**International** | Your project was completed outside the U.S. AGC member companies have been building major construction projects throughout the world for many years in all types of overseas civil works construction, including dams, airports, highways, pipelines, industrial plants, commercial and institutional buildings and water/wastewater facilities.

**Specialty Contractor** | Your completed project in which you served as a Specialty Contractor.

**Rapid Response Project** | Your completed project was in response to a natural disaster or unforeseen emergency.

**Utility Infrastructure** | Your completed project was related to water and wastewater, underground utility, site preparation and other types of public works construction, such as public facilities, gas, water, sewer or electrical. Construction or rehabilitation is typically underground, but is not all-inclusive and may be open, cut or trenchless.
