The Economic Impact of Construction in the United States and Connecticut

Economic Impact of Construction:
- U.S. gross domestic product (GDP)—the value of all goods and services produced in the country—totaled $21.4 trillion in 2019; construction contributed $887 billion (4.1%).
- In Connecticut, construction contributed $8.7 billion (3.1%) of the state’s GDP of $285.6 billion.
- There were 706,000 construction firms in the U.S. in 2017, including 7,862 in Connecticut.

Construction Spending:
- Nonresidential spending in the U.S. totaled $814 billion in 2019 ($486 billion private, $328 billion public).
- Residential construction spending in the U.S. totaled $551 billion ($280 billion single-family, $80 billion multifamily, $184 billion improvements, $6 billion public).
- Private nonresidential spending in Connecticut totaled $2.3 billion in 2019. State and local spending totaled $2.8 billion. (Totals are not available for residential or federal construction spending).

Construction Employment (Seasonally Adjusted):
- Construction (residential + nonresidential) employed 7.2 million workers in July 2020, a decrease of 306,000 (-4.1%) from July 2019, and 6.6% less than in April 2006, when U.S. construction employment peaked.
- Construction employment in Connecticut in July 2020 totaled 57,400, a decrease of 3.9% from July 2019, and 18% less than the state’s peak in January 1990.
- Contractors are hiring. In the 2020 AGC-Autodesk Workforce Survey, 60% of firms in the U.S. had unfilled hourly craft positions on June 30, 2020.

Construction Industry Pay:
- Construction jobs pay well. In Connecticut, 5 out of the 5 most numerous construction occupations had higher median pay than the median for all employees in the state in 2019. (Half of workers earn more than the median; half earn less.)
