Quantifying Delay and Cost Impacts

Regardless of insurance coverage applicability, contractors should measure all financial impacts of COVID-19. The attachments below offer key tips to quantifying impacts from the event.

- Checklist: Documenting Project Shutdowns/Delays, Procor Solutions + Consulting – click here
- Worksheet: Project Delay Cost Estimate, Procor Solutions + Consulting – click here

Insurance Coverage

Insurance policies that may respond to the COVID-19 outbreak may include the following (check with your insurance broker to confirm coverages):

1. Property/Business Interruption

- Coronavirus and Business Interruption Coverage for Policyholders, Saxe Doernberger & Vita – click here
- Business Interruption Challenges [Checklist], Saxe Doernberger & Vita – click here
- Builder’s Risk Considerations During the COVID-19 Pandemic, Willis Towers Watson - click here (posted with permission from Bill Creedon, Global of Construction)

2. Workers’ Compensation Policy

- Impact of Coronavirus (COVID-19) in U.S. Casualty Claims, AON – click here

3. Environmental Insurance

# Construction Project Loss/Delay checklist when impacted by Coronavirus

## PROJECT INFORMATION

<table>
<thead>
<tr>
<th>Project:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Owner / Developer:</td>
</tr>
<tr>
<td>Time/Date (Approx.) Project Delays Began:</td>
</tr>
<tr>
<td>Time/Date (Approx.) Project Resumed:</td>
</tr>
</tbody>
</table>

## PROJECT IMPACTS

1. Prior to shut down, take ample photographs and videos to memorialize project status before closure. Slowly walk the perimeter of the site and take a 360° video of each area - Time stamps to photos and videos.
2. Establish a separate Potential Change Order (PCO) in the project cost accounting system under which all Coronavirus loss-related costs will be captured.
3. Identify the most recent pre-shutdown construction project schedule to memorialize status and pre-shutdown construction milestones and dates such as Temporary COO, inspections and/or final completion.
   - Pre-incident CPM project schedule(s)
   - This will be crucial when job site resumes and review of post-incident critical path schedule and impacts are compared.
4. Develop a Rough Order of Magnitude (ROM) that outlines all areas of anticipated loss amounts based on a projected project delay period. Update estimates accordingly during delay.
5. Identify Extra Expenses - costs above normal related to the event. Any cost or expense incurred, that would not have been incurred "but for" the event, should be tracked.
6. Identify any Expediting Expenses—costs incurred once job resumes to speed up back to normal, such as overtime wages and express transportation charges.
7. Identify costs related to ingress / egress delays, enforcement of laws or ordinances regulating repair, demolition, and reconstruction of damaged buildings.
8. Create list to track all additional general conditions for the project related to Coronavirus impact.
   - Trade Timesheets
   - Office, trailers, overhead costs
   - Added field labor costs must be documented clearly

## NOTICES

- Track and compile relevant Notices, Declarations of Emergency, State or City instructions
- Track and compile relevant Notices from Owner/Client/Workers/Employees

## IMPACTED SUBCONTRACTORS

- Instruct Subcontractors to create their own Potential Change Order (PCO) in the project cost accounting system under which all Coronavirus loss-related costs will be captured.
- Create list and track any changes in subcontractor staffing levels / workforce pre and post Coronavirus interruption by each subcontractor.
- Create a list to identify anticipated comeback, remobilization by subcontractor.
- Log correspondence related to Coronavirus (letter, notices, claims, cost proposals) from subcontractors

## EQUIPMENT

- Compile Executed subcontract or Service Agreement or Rental Agreements
- Compile invoices & lien waivers
- Compile Proof of Payment-canceled checks or ACH payments

## NARRATIVES

- Prepare a detailed narrative / summary of job status at the time of closure
### Project Delay Cost Estimate Worksheet

**Instructions:**
Please fill out the information for the boxes highlighted in light yellow. The gray boxes will populate automatically but can be manually overridden if needed. Please add additional comments as necessary. The total delay impact will be highlighted in bright yellow.

*This is not meant to be an exhaustive list. For a more detailed analysis please contact Procor Solutions + Consulting at (800) 871-5822.*

**Summary**

Navigating the Outbreak, Part VI: Insurance Coverage and Claims
Sample Cost Category Detail

**Direct Labor**
- Project Executives
- Project Managers
- Superintendents
- Project Engineers
- Schedulers
- Estimators
- QA/QC
- Safety
- Finance / Accounting
- Administrative

**General Conditions**
- Temporary Office
- Site Security
- Fencing
- Electric
- Internet & Phone
- Computers & Printers
- Waste Removal
- Toilets
Legislative/Executive Proposals on Coverage

Attempts to Void Virus Exclusions/PD Issue:
NJ, OH, MA, NY, TX (as of 3.27.20)

Cancellation/Non-Renewal
LA

Lobbying for 9/11-type Public Fund/FEMA(?)
Federal
Key Takeaways

• Establish a separate account number or charge code in your cost accounting system under which all Coronavirus loss-related costs will be captured.

• Calculate your business’ operating “baseline” – usually a 2-3 year look-back of the business performance to use for comparative purposes during the disruption period.

• Speak to your trusted business advisers, including attorneys, insurance brokers, risk management professionals and CPAs.

• Continue to monitor the news and sign up for local text alerts in your area to stay informed as the situation continues to develop.

• Keep track of all local, state or federal directives that impact your business.
Policyholders’ Coverage Checklist in Times of Coronavirus

• Assemble Your Team
• Pre-Loss Risk Management
• Define the Risk
• Be Fully Engaged with Brokers
• Prompt Notice
• Document Facts/Costs/Losses
• Be Mindful of Applicable Regulations and Laws
