

AGC EDUCATION AND RESEARCH FOUNDATION

WORKFORCE DEVELOPMENT SCHOLARSHIP

The AGC Education and Research Foundation offers Workforce Development Scholarships to students enrolled in accredited technical schools or craft training programs in any discipline of construction.

As the U.S. economy shifts from manufacturing to knowledge-based, there has been a corresponding shift in interest in establishing educational programs designed to prepare students for college. The consequence has been the overwhelming impression among youths, their parents and teachers that career and technical education is unacceptable, despite the fact construction jobs often pay better than many post-college options, especially post-downturn.

This scholarship was started thanks to a generous donation from NCCER and its Build our Future initiative. Your contribution will allow us to continue building this fund to ensure students have the technical skills needed to immediately enter into the construction workforce.

AGC EDUCATION AND RESEARCH FOUNDATION

Ensure students across the country receive the support they need to continue their education

Craft professional's salaries range from \$47,000 to \$89,000 annually

Provide financial assistance to students entering craft training or technical programs

**Application Deadline:
June 1, 2018**
