

AGC of America, supported by a Susan Harwood Federal Grant, is pleased to offer...

# Safety Training for the Focus Four Hazards in Construction

**FREE TO ALL ATTENDEES**

## Program Description:

Construction workers make up approximately 4 percent of the country's work force, but account for nearly 20 percent of all job-related fatalities each year. The construction focus four hazards continue to account for the greatest number of preventable fatalities and serious injuries in the construction industry. AGC of America is pleased to offer this one-day training program based on OSHA standards and best practices to answer the need for quality training within the industry.

## Who Should Attend?

- Company Officers
- Managers
- Project Managers
- Supervisors
- Foremen
- Both Union and Non-union Contractors

## What Will I Learn?

- Common Exposures to the Focus Four Hazards
- OSHA Standards and Best Practices Related to the Focus Four Hazards
- Proper Selection of Trenching and Excavation Protective Systems
- Training Requirements

## Training Date and Time:

September 29, 2017  
8:00 A.M. – 5:00 P.M.

## Training Location:

HCSS  
13151 W. Airport Blvd.  
Sugar Land, TX 77478
