

Introducing the Foot Shield... helping customers clean their shoes

FOOT SHIELD™

Current Situation

- ▶ A new study published by the Centers for Disease Control and Prevention (CDC) suggests that the novel coronavirus can live on the soles of shoes.

- ▶ https://wwwnc.cdc.gov/eid/article/26/7/20-0885_article

Foot Shield - How it Works

- ▶ Customer buys base unit
- ▶ Customer adds chemical of their choice
- ▶ Cintas provides refill pack of 5 base inserts
- ▶ Customer changes out base inserts

Cintas Item # X9920

Cintas Item # X9921

Features and Benefits: A Clean Solution

FOOT  SHIELD

- ▶ 2' x 3' foot bath station designed to help keep your facility floors clean
- ▶ Durable, vinyl construction features beveled edges
- ▶ Holds up to 1.5 gallons of solution
 - ▶ Customer uses solution of their choice
- ▶ Features multiple insert pads for customer to replace as needed
- ▶ Removable pegs in the corners help keep inserts stabilized
- ▶ Can easily be combined with a 3' x 5' XTRACTION® Mat

The advertisement features a blue header with the 'FOOT SHIELD' logo. Below the header are two photographs: the left one shows a person standing on the station, and the right one shows the station placed in a hallway. A blue banner below the photos states 'FOOT SHIELD STATION CAN FIT OUTSIDE MOST WALKING PATHS'. The main body of the ad contains a list of features and benefits, a list of general placement locations, and a list of industry opportunities. The Cintas logo is at the bottom right, with the tagline 'READY FOR THE WORKDAY'. A large red 'FPO' watermark is overlaid on the text.
