INVITE YOU TO

**THE FUTURE OF AMERICAN TRANSPORTATION
INFRASTRUCTURE POLICY
KEYNOTE & PANEL**

Hosted at the Willard Hotel | 1401 Pennsylvania Ave NW

MARCH 2, 2011 | 7:30 a.m. - 10 a.m.

America's transportation infrastructure needs repair. In 2007, the U.S. Bureau of Transportation reported that one-fourth of the nation's bridges require major structural upgrades. Nearly one-third of all major roads need to be reconstructed. With a robust American economy that thrives on reliable infrastructure, changes must be made.

The question is, what exactly should be fixed? And who should pay for it?

Sean Connaughton

VA Secretary of Transportation
Keynote address

Fred Barnes

Executive Editor,
The Weekly Standard
Panel Moderator
