Footnotes:

¹Area: Visit <https://www.bls.gov/lau/lausmsa.htm> for a list of counties in each MSA and division.

²Industry: The Bureau of Labor Statistics (BLS) only reports construction employment combined with mining and logging in most metros, because of small sample sizes or to preserve confidentiality for industries with few employers. Metro data is not seasonally adjusted.

³Rank: BLS currently provides construction (or combined construction, mining and logging) employment data for 358 metro areas, rounded to the nearest 100. Thus, it is not possible to calculate percent changes more accurately than to the nearest whole percent and all metro areas with the same whole-percent change in employment are ranked the same. (Exception: Employment changes of less than 0.5% are shown and ranked based on the nearest 0.1%.)

⁴Missouri-Kansas: Kansas City is not listed as a multiple-division metro area by the Office of Management and Budget, but BLS provides separate estimates for Kansas City, MO and Kansas City, KS.
