US Construction Outlook: Lively, Level, or Lackluster?

Ken Simonson

Chief Economist, AGC of America

ken.simonson@agc.org

Total nonfarm & construction employment, Feb. 2020–Nov. 2023

Year-over-year change, seasonally adjusted

Construction employment change by state, Oct. 2022-Oct. 2023 (U.S.: 2.8%)

40 states & DC **up** & 8 states **down** & 2 states unchanged

Construction job openings & new hires

Job openings and hires, October 2001-October 2023, not seasonally adjusted

September unemployment rate: total nonfarm & construction

Nov. 2000-Nov. 2023, not seasonally adjusted (NSA)

Construction wage “premium” vs. total private sector

Excess of average hourly earnings (AHE) for production and nonsupervisory employees in construction vs. private sector

Annual premium, 2000–2019

Monthly premium, Jan. 2020–Nov. 2023
(seasonally adjusted)

Construction materials & labor costs top consumer inflation

Year-over-year change in producer price index (PPI) for nonresidential inputs, average hourly earnings (AHE) for production employees in construction, and consumer price index (CPI), Feb. 2020 – Oct. 2023

Some construction costs remain volatile

producer price indexes, 1 - & 12-mo. change (not seasonally adjusted)

October 2023 change from:

<u>Sep. 2023</u>	<u>Oct. 2022</u>
<u>(1 month)</u>	<u>(12 months)</u>

Cement	-0.7%	9%
Ready-mix concrete	0.1%	11%
Diesel fuel	-9%	-33%

Subcontractor price indexes, nonresidential building work

Roofing contractors	0.3%	9%
Plumbing contractors	0.5%	4%
Electrical contractors	-0.6%	2%
Concrete contractors	1%	-2%

Cost squeeze on contractors can reappear suddenly, last 2+ years

Difference between year-over-year change in materials costs vs. bid prices, Jan 2007-Oct 2023

Change in construction spending: October 2023 vs. October 2022

Year-over-year % change in current (not inflation-adjusted) dollars, seasonally adjusted

Change in construction spending: October 2023 vs. October 2022

current (not inflation-adjusted) dollars, seasonally adjusted

Total 11%: Private residential 1% (**single-family -1%**; multi 17%; **improvements -2%**); public residential 18%

Nonresidential 20% (private 22%, public 16%)

Nonresidential segments (in descending order of Oct. 2023 spending; combined new & renovation spending)

- Mfg. 71% (computer/electronic 138%; chemical 46%; food/beverage/tobacco 16%; transportation equipment 10%)
- Highway and street 13%
- Commercial 5% (warehouse 4%; retail 4%; farm 21%)
- Power 16% (electric 21%; **oil/gas fields & pipelines -8%**)
- Education 18% (primary/secondary 18%; higher ed 18%)
- Office (including data centers) 9%
- Transportation 8% (air 8%; private rail/truck 11%; **transit -14%**)
- Health care 12% (hospital 13%; medical building 18%; **special care -7%**)
- Other: Sewage/waste 29%; Amuse/recreation 10%; Water supply 16%; Communication 2%; Lodging 11%; Conservation/development 23%

Medium-term outlook for construction

- Economic recovery should continue but risk of recession remains
- Homebuilding appears poised for slow recovery
- Multifamily, warehouse, retail, office, lodging: slowdown likely due to rising rates
- Data center and manufacturing construction should remain hot
- Infrastructure Investment & Jobs Act, “Chips” Act, Inflation Reduction Act will give major boost to infrastructure, manufacturing, and power construction. BUT
 - money will be slow to turn into construction awards and spending
 - Buy America(n), labor, environmental strings may tie up project starts for years
- Materials costs, lead times: mostly better except electrical gear, some electronics
- Labor availability has resumed being the #1 challenge for many contractors

Long-run construction outlook

- Finding workers will be a challenge for much longer than materials costs or supply
- Slower population growth → fewer workers but also slower demand growth
- Slowing demand for K-12, decline for higher ed construction
- Permanent shift from retail to e-commerce/distribution structures
- More specialized and online healthcare facilities; fewer hospitals, nursing homes
- More wind, solar, battery storage and charging facilities, and related manufacturing
- Not clear if offices will decentralize or remain in less demand
- Not clear if recent urban/rural or state-to-state migration will remain or reverse

Population change by state, July 2021–July 2022

(U.S.: 0.38%)

Top 6

FL	1.9%
ID	1.8%
SC	1.7%
TX	1.6%
SD, MT	1.5%

Bottom 5

NY	-0.9%
IL	-0.8%
LA	-0.8%
WV	-0.6%
HI	-0.5%

Vol. 22, No. 17 May 9-12, 2023

PPI for inputs rises in April but dips over 12 months; pay in construction tops U.S. median by 18%

Prices show mixed trends in April

The producer price index (PPI) for material and service inputs to new nonresidential construction rose 0.5% from March to April but declined 1.1% year-over-year (y/y), according to Bureau of Labor Statistics (BLS) data posted on Thursday.

Construction pay tops U.S. median by 18%

"Half of payroll workers in construction earn more than \$4,540," 18% more than the U.S. median wage of \$4,631, and the top 25% make at least \$77,030, 4.9% higher than the U.S. top quartile base of \$73,460, the National Association of Home Builders reported on Tuesday, based on its analysis of May 2022 Occupational Employment and Wage Statistics posted by BLS.

Child counts decline in 35 states

In a trend with implications for school and other construction, "Thirty-five states have fewer children than they did five years ago, a situation caused by declining birth rates nationwide, but also by young families migrating across state borders in search of cheaper housing," Stateline reported on Thursday.
