¹**Area:** Metropolitan statistical areas (MSAs) are designated by the Office of Management and Budget. MSAs generally cover one or more entire counties or county equivalents. Employment in several large MSAs (listed in **bold**) is presented in two or more divisions (Div). MSA totals are shown but not included in rankings to avoid double counting of the divisions.

²**Industry:** The Bureau of Labor Statistics (BLS) only reports construction employment combined with mining and logging in most metros, because of small sample sizes or to preserve confidentiality for industries with few employers.

³**Rank:** BLS currently provides construction (or combined construction, mining and logging) employment data for 360 metro areas, rounded to the nearest 100. Thus, it is not possible to calculate percent changes more accurately than to the nearest whole percent and all metro areas with the same whole-percent change in employment are ranked the same. (Exception: Employment changes of less than 0.5% are shown and ranked based on the nearest 0.1%.)

Rankings of Metropolitan Areas by Percent Change in Construction Employment, November 2024–November 2025
 (not seasonally adjusted)

<u>Area</u> ¹	<u>Industry</u> ²	<u>November '24</u>	<u>November '25</u>	12-month gain/loss	12-month % change	Rank ³ based on: gain/loss	Rank ³ based on: % change
--------------------------	------------------------------	---------------------	---------------------	-----------------------	----------------------	------------------------------------------	-----------------------------------------

⁴New York City: BLS posts mining, logging, and construction data for the New York-Jersey City-White Plains metro division and for the New York City "special area," which is part of the metro division. To avoid double counting, these tables treat New York City and Jersey City-White Plains (excluding NYC) as separate areas.
